Use event code: 100248

Founded in 2003, K1 Speed is now one of the premier karting companies in America. With kart racing centers in San Diego, Los Angeles, Santa Clara, Seattle, the Inland Empire, Fort Lauderdale and Phoenix and several more facilities planned for the near future, K1 Speed brings the thrill and excitement of indoor karting to a large audience.

Offering highly-advanced and environmentally-friendly electric karts as well as large indoor entertainment venues that feature authentic racing memorabilia, pit cafes, meeting rooms and pool tables, K1 Speed is a great place to visit with family and friends or to host a corporate event or party. If you're interested in experiencing the latest technology in kart racing, visit one of our Nationwide karting centers today!

The premise behind the creation of K1 Speed was to offer enthusiasts and amateurs alike an authentic and genuine racing experience in a safe, comfortable, accessible and perhaps most importantly, unique environment. Utilizing advanced European electric karts and indoor asphalt tracks, K1 Speed quickly developed a reputation as being fun and exciting, and our growth has been continuous since we first opened our doors.

To meet the needs of customers and kart racing enthusiasts who demand more, we also have a Pro Shop - K1 Race Gear - which carries everything that a karter might need to compete at the track. At K1 Speed, our goal is to be synonymous with karting, and we think that we are on our way!
